South Dakota "One Health" Working Group Seminar

COVID-19 and One Health:

How the coronavirus pandemic changed animal and human health in South Dakota

Thursday, July 8, 2021

9:00 am – 4:00 pm

Health Science Center 106, Sioux Falls, SD

In person and Zoom

The latest in our series of One Health South Dakota seminars will focus on how the coronavirus pandemic changed animal and human health in South Dakota. Some of the topics to be explored include:

- Animal coronaviruses: their similarities and differences vs. SARS-CoV2
- How the pandemic changed delivery of basic health care in South Dakota
- How the pandemic changed delivery of animal health care in South Dakota
- How the pandemic changed medical and veterinary education in South Dakota and the Midwest
- How COVID-19 testing evolved during the pandemic
- Developing animal vaccines for SARS-CoV2

Interested audiences: Livestock producers, veterinarians, human health professionals, healthcare workers, pharmacists, health and animal educators, medical and veterinary science students, regulatory officials, among many others.

Lunch is provided if you are attending in person, but pre-registration is required at the website

Register by July 2nd at: bit.ly/sdoh2021
