

South Dakota "One Health" Working Group Seminar

Rabies in South Dakota: Animal and Public Health Aspects

Monday, October 30, 2017

9:00 am – 5:00 pm

USD Health Science Center Room 106
1400 West 22nd Street, Sioux Falls, South Dakota

The latest in a series of "One Health" meetings in South Dakota, this session will explore one of the more important zoonoses encountered in South Dakota: rabies. The wildlife reservoirs of the disease, the management of people and animals exposed to rabies, along with current recommendations, and testing considerations will be addressed.

To Register or for more information:
